

St. Mary's Boys Records a Mean of 10.02

“The function of education is to teach one to think intensively and to think critically. Intelligence plus character - that is the goal of true education.” Martin Luther King, Jr.

The young men have proven to be academic giants again after recording a mean score of 10.02 in the Kenya Certificate of Secondary Education (KCSE) in the 2015 examination. This an improvement from 2014's 9.73.

They have graduated out of high school as true men as our motto states ‘Give us the boy, we give you back the man’.

Simon Mwangi Wageita was the leading student with a mean grade of A of 83 out of the possible 84 points. The other leading students were Migwi Kelvin Minjire, Muriithi Wanjau Eric and Kanja Daniel Wangewa with 82, 82 and 81 points respectively.

The school had an entry of 102 students out of which six were from our Child Rescue Program and whose performances were excellent compared to what they have been performing in class. In 2014 we had 45 Juniors out of the 147 students.

Those who managed to score A (plain) were 4 and A- (minus) were 41.

B+ (plus) were 39, B (plain) 8, B-(minus) 10, C+ (plus) 5 and C (plain) 1.

Computer Studies was tested in the school for the first time and performed exemplary with three A's, four A-'s and one B-.

From boys

to men

There was a general improvement in all subjects with the least performance shifting from C- to C. 99% of the students managed to score C+ and above which is the minimum entry to government sponsored colleges. Only one student never managed to score a C+ as compared to 2014's six.

They will all be joining college later in the year.

As Martin Luther King posits, Intelligence and Character have been instilled in our young men who have grown holistically to fit in the society. This, however, would not have been possible without the efforts and support of the teachers, parents and donors.

We thank our teachers for their relentless sacrifice and time in ensuring that the students were adequately prepared. We cannot also forget our non-teaching staff for their immense indirect contribution.

Our sincere gratitude goes to all our DONORS in Europe, United States, New Zealand, our twin schools-USA, DKA, Poyde, Brothers and Lasallian friends in USA, Fiona & her family, St. Mary's Advisory Board USA and Rich McKay - our Volunteer Development Director for their support and commitment.
